First edition, 2026

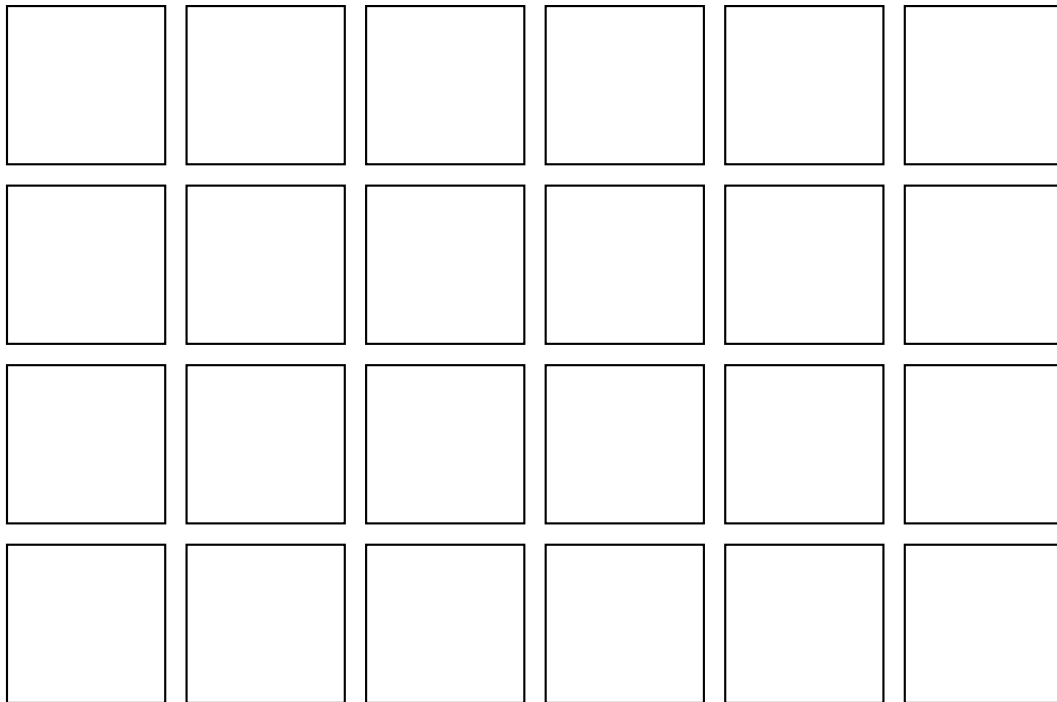

Before you begin

Colored pencils, crayons and fine-liners work beautifully on these pages.

Alcohol markers and some gel pens can bleed through. Slip a spare sheet of paper behind the page you're coloring to protect the next design.

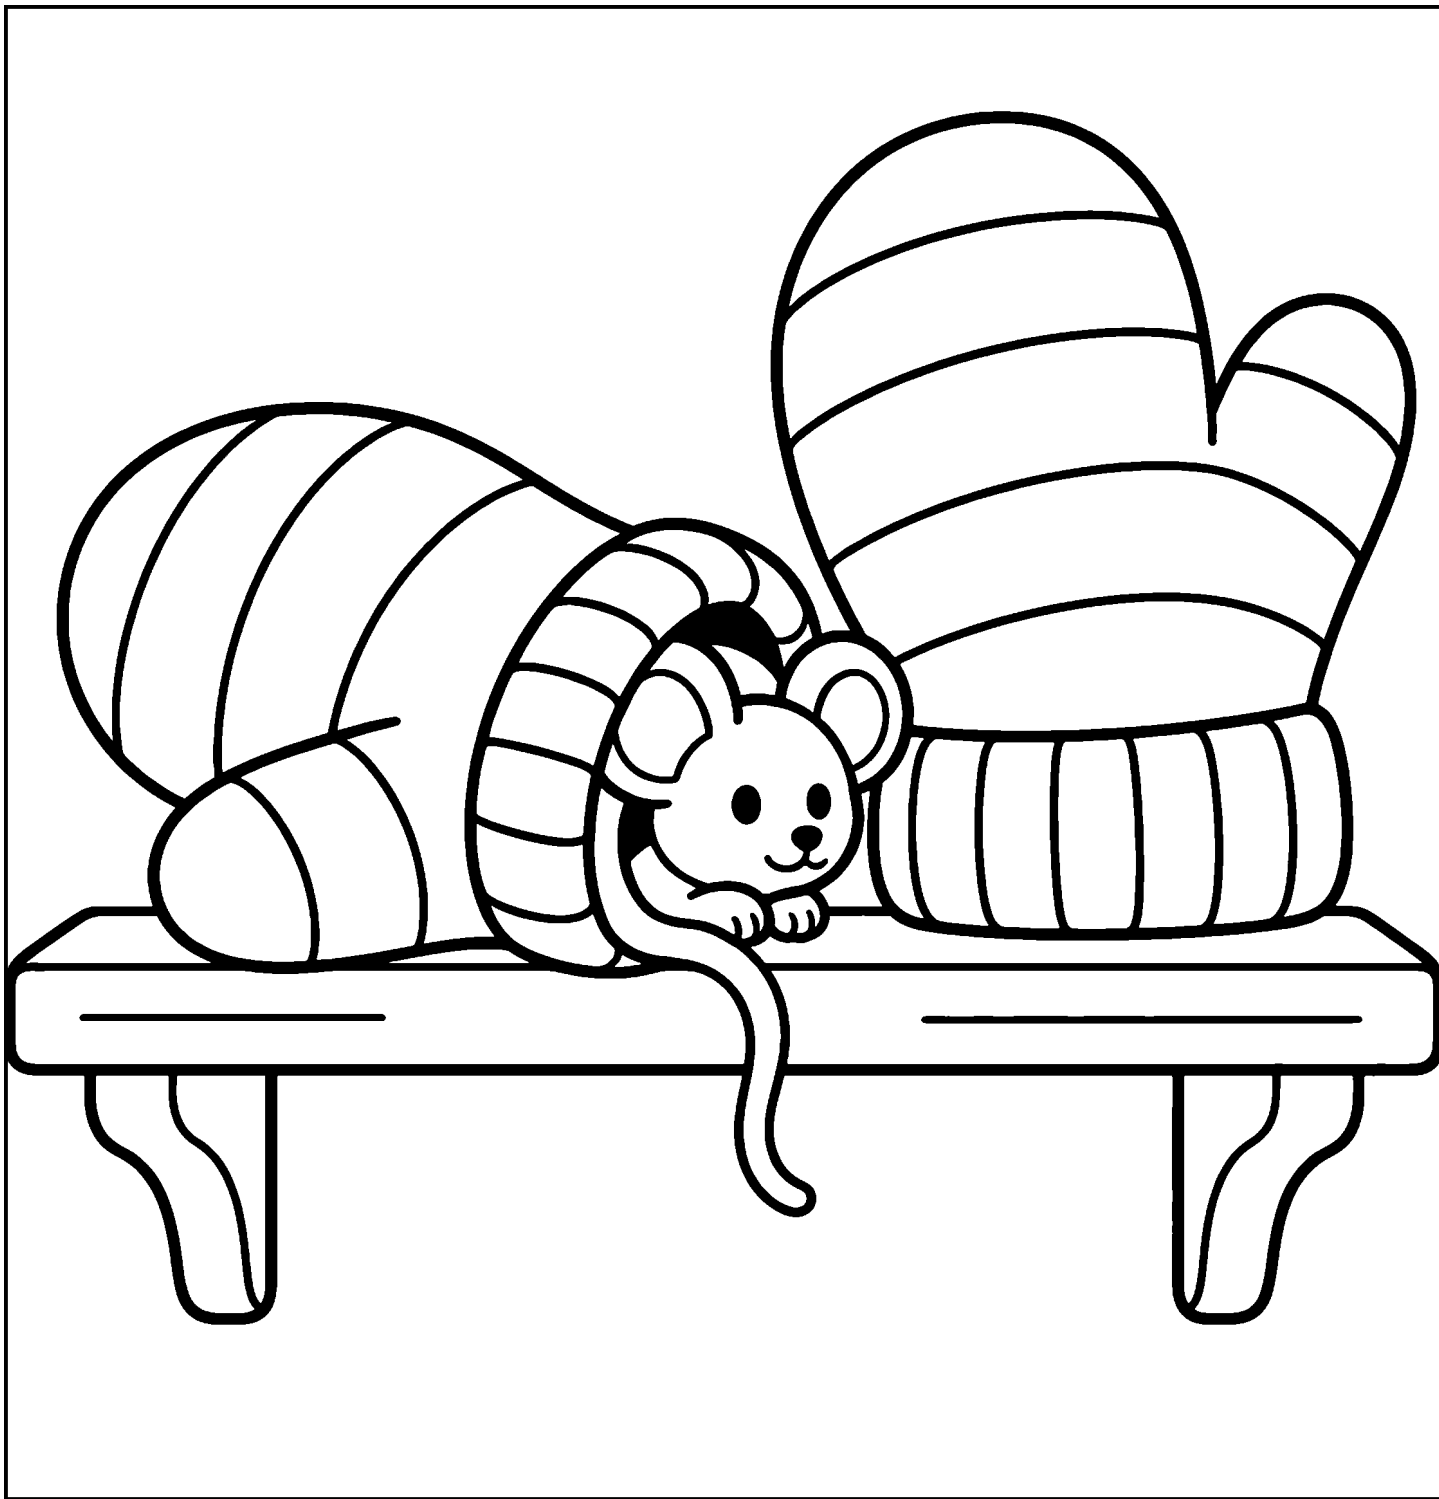

Each design is printed on one side only, so there's never another picture on the back of the one you're coloring.

Use the grid below to try your colors before you start.

Coming next in the Simple Seasons series

Simple Seasons: Spring

More bold, easy pages to color, one season at a time.
